### DTV Consumer Education Quarterly Activity Report

#### Instructions

This form should be used to provide the Federal Communications Commission (FCC) with information pertaining to all station activity to educate consumers on the transition to digital television (DTV). All stations should log DTV Transition-Related Public Service Announcements (PSAs) and other DTV activities using the appropriate house (identification) numbers. These logs or records should include the date and time that each DTV activity occurred. This form must be filed in Docket Number 07-148 as Document Type: REPORT, and placed in the station's Public Inspection File. This form must continue to be filed for each quarter in which a station has DTV Transition education obligations.

## Section A (For broadcasters electing Option One)

Stations that elect Option One must place a copy of this form on the station's public website, if such exists.

On its analog channel, and its primary digital stream, a station must air one transition PSA, and run one transition crawl, in every quarter of every day. This requirement will increase to two PSAs and crawls per quarter per day on April 1, 2008, and to three of each on October 1, 2008. Stations are required to air PSAs or crawls at various times in any given day part, and at least one PSA and one crawl per day must be run during primetime hours. On-air education must not contain inaccurate or misleading statements and must be provided in the same language as a majority of the programming carried by the station. PSAs must be at least 15 seconds, and closed-captioned. Crawls must run during programming for no fewer than 60 consecutive seconds across the bottom or top of the viewing area (See rules for additional details).

Have you aired a sufficient number of eligible PSAs (28, 56, or 84 per week, depending on the reporting period) during the correct quarters of the day?

☐ Yes      ☐ No

Have you aired a sufficient number of eligible crawls (28, 56, or 84 per week, depending on the reporting period) during the correct quarters of the day?

☐ Yes      ☐ No

**Section B (For broadcasters electing Option Two)**

On its analog channel, and its primary digital stream, a station must run an average of 16 transition-related PSAs and 16 transition-related crawls, snipes, and/or tickers per week in each quarter, all between the hours of 5 a.m. and 1 a.m.. It must also run one 30 minute DTV-related informational program once, and one 100-Day Countdown piece per day for the 100 days prior to the conclusion of the transition. Comment boxes MUST be used to describe these compliant activities (See rules for additional details).

Frequently asked questions

What is the digital TV (DTV) transition?

The switch from analog to digital broadcast television is referred to as the digital TV (DTV) transition. In 1996, the U.S. Congress authorized the distribution of an additional broadcast channel to each broadcast TV station so that they could start a digital broadcast channel while simultaneously continuing their analog broadcast channel. Later, Congress mandated that February 17, 2009 would be the last day for full-power television stations to broadcast in analog. Broadcast stations in all U.S. markets are currently broadcasting in both analog and digital. After February 17, 2009, full-power television stations will broadcast in digital only.

What is an Analog TV?

Analog TV: Analog technology has been in use for the past 50 years to transmit conventional TV signals to consumers. Most current television transmissions are received through analog television sets. Analog signals vary continuously, creating fluctuations in color and brightness.

What is Digital TV?

Digital Television (DTV): Digital TV is a new type of broadcasting technology that will transform television. Because DTV is delivered digitally, the television signal is virtually free of interference. And because DTV is more efficient than analog, broadcasters are able to offer television with improved quality pictures and surround sound. DTV will soon replace today's analog television.

How do I know if I own a DTV?

What you need to know is whether your TV set has something called a "digital tuner" already built in. If it does, your TV set is already configured to receive and display the new digital over-the-air TV signals that will be transmitted in February 2009. To check whether your TV set can receive over-the-air digital broadcast signals, take a look at your owner's manual or look on the set for an indication that it has "digital input" or "ATSC" (for Advanced Television Systems Committee, which is developing the DTV format). You can also go to the manufacturer's website and check the capabilities of the set by the manufacturer model number.

If your television set is labeled as "analog" or "NTSC," and is NOT labeled as containing a digital tuner, it contains an analog tuner only.

You will need a converter.

How do I know whether I need a converter?

If you use "rabbit ears" or a rooftop antenna for TV reception, you probably need a converter. Television sets connected to cable, satellite or other pay TV service do not require converters.

Televisions with digital tuners also do not need converters. Take a short quiz at the DTV Transition Web site to see whether the converter box is the right option for your household to make the digital transition. [www.dtv.transition.org/index](http://www.dtv.transition.org/index)

Can I get digital HD broadcasts?

If you have a high definition television set with a digital tuner & use an indoor or outdoor HD antenna, many viewers will be able to see over the air high definition programs offered by their local stations for free without having to subscribe to cable or satellite.

FCC form 388 pertaining to the Digital transition is located in this station's Public File.

On February 17, 2009 Your TV May Stop Receiving Television Programming!

Digital Television (DTV) Transition:

On February 17, 2009, federal law requires that all full-power U.S. broadcast stations must switch from analog television broadcasting to digital television broadcasting.

DTV Benefits for the Public (from FCC Consumer Facts):

- Provides clear pictures, quality sound and more programming and channels.
- Provides future interactive video and data services for the TV of the future.
- Allows more emergency & safety transmission.

Who will this Affect?

If you currently rely on rabbit ears or a roof top antenna and have an analog television, after February 17, 2009, you will no longer be able to receive television programming.

Three Solutions:

1. Purchase a DTV converter box that will convert the digital signal into analog in order to be transmitted digitally through your analog television (see the TV Converter Box Coupon Program below).
2. Obtain a television set with digital tuner.
3. Subscribe to a cable or satellite provider which will allow your analog TV to continue to function.

TV Converter Box Coupon Program:

The National Telecommunications & Information Administration (NTIA), a federal agency, will start "The TV Converter Box Coupon Program" in January 2008.

- Each household may apply for two coupons, each worth \$40 (coupon-eligible converter boxes are expected to cost between \$50 - \$70 and will be available at electronics stores and online retailers).
- Consumers can apply to the NTIA through [www.dtv.gov](http://www.dtv.gov), toll free (888) 388-2009 or by mail.
- Coupons will be available on a first come, first serve basis, and distribution will start in early spring of 2008. This will include retail information where converter boxes are available for purchase within

a five mile radius of recipients' homes.

•Coupons will expire after 90 days from the date that they were issued.

#### PREPARING CONSUMERS FOR THE DTV TRANSITION

With less than a year before our industry undergoes one of the most significant changes in recent history, FOX is working diligently to assist in the consumer awareness and education effort that is necessary and critical to facilitate the Digital Television (DTV) Transition. In addition to the mandated public service announcements and informational crawls, FOX has extended our consumer education outreach and focus to those groups identified by the Federal Communications Commission who are most vulnerable and at the highest risk of being negatively impacted by the DTV transition – namely multi-cultural communities, seniors, Native American and tribal communities, non-English speaking consumers, as well as socially- and economically- disadvantaged groups.

Guided by the expertise of FOX's Diversity Group, we have developed strategic partnerships with local and national multi-cultural, public interest groups – from civil rights organizations to educational institutions – to disseminate materials and information on the upcoming digital transition in English, Spanish, and Asian dialects. We have positioned ourselves as a reliable resource to over 250 organizations, reaching up to several million consumers, most of whom are hearing in-depth information about the DTV transition for the first time.

These national organizations include:

American Indian Chamber of Commerce

Asian American Justice Center

Asian Federation

Asian Pacific American Legal Center

Bureau of Indian Affairs

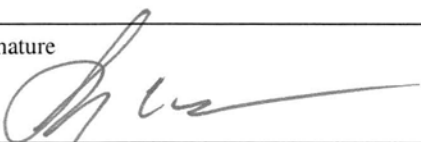

Congressional Black Caucus Foundation  
 Congressional Hispanic Caucus Institute  
 Department of Health & Human Services  
 Hispanic Association of Colleges & Universities  
 Hispanic Federation  
 Historically Black Colleges and Universities  
 Indian Country Today  
 Japanese American Citizens League  
 Japanese American National Museum  
 League of Latin American Citizens  
 Mexican American Grocers Association  
 Minority Faith Communities  
 NAACP  
 National Assn. of Black Owned Broadcasters  
 National Congress of American Indians  
 National Latino Media Council  
 National Puerto Rican Council  
 National Urban League  
 Native American Media & Technology Network  
 Organization of Chinese Americans

Specifically, we have provided these groups with the necessary materials to more effectively educate and direct their constituents through the conversion process, as well as encouraged them to facilitate workshops at national conferences; place articles in the organizations' newsletters and magazines; as well post the [www.dtv.gov](http://www.dtv.gov) link on their websites.
